

## Valletta Baroque Festival's 10th Edition to Feature an Abridged Programme

Over the past days, Festivals Malta has been following the developments of the Covid-19 situation in Malta and around the world. Due to the increasing number of cases, the Valletta Baroque Festival will be abridged to include only local ensembles. As a result, the international portion of the programme will be postponed to the next edition of the Valletta Baroque Festival in 2023.

While Festivals Malta was looking forward to organising the 10th edition of the Valletta Baroque Festival, the agency felt that this was the most responsible action to take in order to safeguard the wellbeing of its artists, team and patrons.

In this light, the abridged edition will be held between the 18th and 28th of January 2022. A full refund will be issued to all patrons for the cancelled events.

Festivals Malta would like to apologise for any inconveniences caused.

The Valletta Baroque Festival is organised by Festivals Malta in collaboration with Teatru Manoel and Visit Malta.
